Список достижения:

---

Я перешла в каталог `~/work/blog/content/authors/admin` и редактировала файл `_index.md`:

Рис. 1: authors/admin

# Добавление информации о навыках

Я добавила технические навыки и хобби:

```
Ouvrir ▾ + • _index.md  
~/work/blog/content/authors/admin  
- lorem ipsum dolor sit amet, consectetur adipiscing elit  
  
# Skills  
# Add your own SVG icons to `assets/media/icons/`  
skills:  
  - name: Technical Skills  
    items:  
      - name: Python  
        description: ''  
        percent: 80  
        icon: code-bracket  
      - name: Data Science  
        description: ''  
        percent: 100  
        icon: chart-bar  
      - name: SQL  
        description: ''  
        percent: 40  
        icon: circle-stack  
      - name: Git  
        description: 'Working with git and github'  
        percent: 100  
        icon: chart-bar
```

Рис. 2: Технические навыки

## Добавление информации о навыках

```
- name: Hobbies
  color: '#eeac02'
  color_border: '#f0bf23'
  items:
    - name: Hiking
      description: ''
      percent: 60
      icon: person-simple-walk
      icon_pack: fas
    - name: Cats
      description: ''
      percent: 100
      icon: cat
    - name: Photography
      description: ''
      percent: 80
      icon: camera
      icon_pack: fas
```

Рис. 3: Хобби

На локальном сервере я проверила изменения:

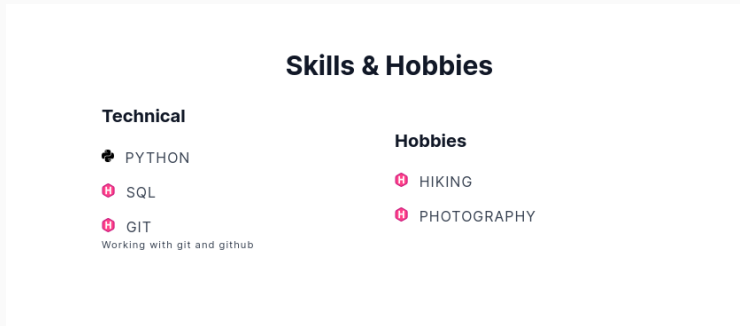

Рис. 4: Проверка добавление навыка

## Добавить информацию об опыте

Чтобы добавить информацию об опыте, я перешла в `~/work/blog/content` и открыла файл `_index.md` для редактирования:

```

- block: experience
  content:
    title: Experience
    # Date format for experience
    # Refer to https://docs.hugoblox.com/customization/#date-format
    date_format: Jan 2006
    # Experiences.
    # Add/remove as many 'experience' items below as you like.
    # Required fields are 'title', 'company', and 'date_start'.
    # Leave 'date_end' empty if it's your current employer.
    # Begin multi-line descriptions with YAML's `|2-` multi-line prefix.
    items:
      - title: CEO
        company: GenCoin
        company_url: ''
        company_logo: org-gc
        location: California
        date_start: '2021-01-01'
        date_end: ''
        description: |2-
          Responsibilities include:

          * Analysing
          * Modelling
          * Deploying
      - title: Professor of Semiconductor Physics
        company: University X
        company_url: ''
        company_logo: org-x
        location: California
        date_start: '2016-01-01'
        date_end: '2020-12-31'
        description: Taught electronic engineering and researched semiconductor physics.
```

## Добавить информацию об опыте

Я заменила существующую информацию на свою собственную:

```
# Experiences.
# Add/remove as many `experience` items below as you like.
# Required fields are `title`, `company`, and `date_start`.
# Leave `date_end` empty if it's your current employer.
# Begin multi-line descriptions with YAML's `|2-` multi-line prefix.
items:
  - title: Tutor
    company:
    company_url: ''
    company_logo:
    location: Lusaka, Zambia
    date_start: '2020-02-01'
    date_end: '2021-11-10'
    description: |2-
      Responsibilities include:

      * Preparing students for school leaving exams
      * Working with students to understand key concepts
      * Assisting with homework
  - title: Babysitter
    company:
    company_url: ''
    company_logo:
    location: Lusaka, Zambia
    date_start: '2019-11-21'
    date_end: '2022-10-29'
    description: Made sure kids are clean, fed and safe. Homework help
```

На локальном сервере я проверила изменения:

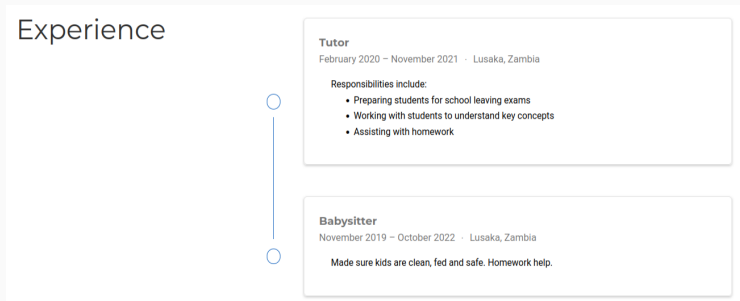

Рис. 7: Проверка добавление опыта

## Добавить информацию о достижениях

В том же файле, где я добавила информацию об опыте, я заменяю информацию о достижениях на свою:

```
design:
  columns: '2'
- block: accomplishments
  content:
    # Note: `&shy;` is used to add a 'soft' hyphen in a long heading.
    title: 'Accomplish&shy;ments'
    subtitle:
    # Date format: https://docs.hugoblox.com/customization/#date-format
    date_format: Jan 2006
    # Accomplishments.
    # Add/remove as many `item` blocks below as you like.
    # `title`, `organization`, and `date_start` are the required parameters.
    # Leave other parameters empty if not required.
    # Begin multi-line descriptions with YAML's `|2-` multi-line prefix.
    items:
      - certificate_url: https://www.coursera.org
        date_end: ''
        date_start: '2021-01-25'
        description: ''
        icon: coursera
        organization: Coursera
        organization_url: https://www.coursera.org
        title: Neural Networks and Deep Learning
        url: ''
```

Рис. 8: Достижения

## Добавить информацию о достижениях

```
items:
- certificate_url: https://www.sololearn.com/certificates/CT-GXTXC1YA
  date_end: '2023-01-08'
  date_start: '2022-12-25'
  description: 'First step to becoming a data scientist'
  icon: code
  organization: Sololearn
  organization_url: https://www.sololearn.com
  title: Python for beginners
  url: 'https://www.sololearn.com'
- certificate_url: https://www.sololearn.com/certificates/CT-BA0ZK3ZI
  date_end: '2022-04-21'
  date_start: '2022-03-10'
  description: 'Theoretical understanding of HTML'
  icon: code
  organization: Sololearn
  organization_url: https://www.sololearn.com
  title: HTML

```

Пост по прошедшей неделе

---

## Пост по прошедшей неделе

Я создала папку lastweekofMarch и в ней вставила фотографию и файл index.md:

Рис. 10: Создание папки

Затем я редактировала файл index.md:

```
....  
  
i Comment est passe cette semaine de mars  
  
me Hugo Blox website builder for Hugo, along with its starter templates, is designed for professional creators, educators, and teams/organizations  
.although it can be used to create any kind of site.  
  
me template can be modified and customised to suit your needs. It's a good platform for anyone looking to take control of their data and online  
identity whilst having the convenience to start off with  
  
anks for reading
```

Рис. 11: Редактирование файла

Пост на тему по выбору

---

Я создала папку Markdown и в ней вставила фотографию и файл markdown.md:

Рис. 12: Создание папки markdown

Затем я редактировала файл markdown.md:

```
1 ---
2 title: Markdown Markup Language
3 date: 31-03-2024
4 summary:
5 ---
6
7 ## What Is Markdown?
8
9 Markdown is a lightweight markup language that allows users to format plain text using easy-to-read easy-to-write syntax. It is widely used for formatting text on the web, in fact I am writing this blog post using markdown myself!
10
11 Markdown syntax is simple and intuitive (especially for those with HTML backgrounds). for example the use of '#' to denote headings (# - header 1, ##- header 2 etc.) and to add pictures to your text you just need an exclamation point and three sets of brackets like this: ![image name](link to image)(size of image). You can also insert code snippets in your text by placing it in the middle of a pair of these guys '```' here is an example of a simple c++ hello world program to show how your snippet would look:
12
13 ```
14 #include <iostream>
15 using namespace std;
16
17 int main()
18 {
19     cout<<"Hello World!"<<endl;
20 }
21 ```
22
23 Another thing I love about using Markdown is it's portability. Markdown files can be edited using literally any text editor and can be easily shared using version-controlled platforms like Github. Markdown files can also be very easily converted into various formats including pdf, docx, latex and html using tools like pandoc or any other converters.
24 Markdown is very popular for writing research papers, lecture notes and even presentations. It's also a great option for taking down notes in class. As technology continues to evolve, Markdown remains a valuable tool for anyone looking to streamline their writing and documentation process.
25
26 I would like to conclude by restating that Markdown is a very efficient and versatile markup language that simplifies formatting of text. It's simplicity, portability and compatibility make it a preferred choice for a wide range of applications, from writing blog posts to academic writing.
```
